Santa Fe, New Mexico, December 1st, 1919.

Honorable O. A. Larrazolo,  
Governor of the State of New Mexico,  
Santa Fe, New Mexico.

Sir:

Herewith find report of Honorable Fidel Ortiz, Superintendent of the New Mexico State Penitentiary, for the 7th Fiscal Year, ending November 30th, 1919.

Meetings of the Board, both as Commissioners and as a Board of Parole, have been held throughout the year, bi-monthly. We have much to commend the superintendent for his close attention to the administration of affairs and for his mild and humanitarian treatment of the prisoners. The prisoners have enjoyed most excellent health during the year, despite the exceedingly bad sanitary conditions which must be improved, but such improvements cannot be made without considerable cost. Recommendations will be made as soon as the report of the Survey and Investigation Commission, which was authorized by the recent legislature, is made.

Your Board has made an extensive tour of the institution and finds a considerable improvement in the appearance of the buildings and grounds. The Dining Hall has been painted inside and out; the Brick plant has been gone over thoroughly, with a competent mechanic from the Clay Machinery Company in charge and placed in an up to date shape. The new boiler has been installed and the Boiler Plant changed around so that the boilers—2 Babcock and Wilcox type 160-pound pressure and 1 Tubular Boiler of 125-pound pressure, are now arranged in battery form. The new laundry machinery has been set up, making a marked contrast to the old and dilapidated machinery that had been in use so long. It is a wonder how the institution was enabled to handle its washing. Certainly it took its toll in torn clothing. We find the three and one-half-ton White Truck doing most excellent work,

delivering considerably more clay per day than the six teams as had been used, and when proper loading facilities have been perfected, over double the quantity of clay will be carried.

The cost of maintenance per capita is much higher than last year, about 32 per cent, but this is readily understood by a study of the statistical tables as shown in the superintendent's report. The overhead charges remain the same no matter if the population is big or little, the guards being the same number, the cost of heating, lighting and other allied expenses not being lessened on account of a reduction in the population of the prison. The greater the population necessarily the smaller per capita cost and the smaller the population correspondingly greater the per capita cost. The rapidly increasing cost of all supplies is a condition that all are encountering and are familiar with; as with individuals so with institutions. The increased cost in practically every commodity has been at least 100 per cent and in many articles considerably in excess of that percentage.

On the whole the Board feels that Mr. Ortiz is entitled to great credit for his admirable handling of the institution.

Very respectfully,

D. T. HOSKINS, *President.*

WM. J. BARKER, *Secretary.*

L. A. HUGHES,

J. E. TORRES,

WARREN GRAHAM,

*Members of the Board.*

# *Annual Report of the New Mexico State Penitentiary*

Santa Fe, New Mexico, December 1, 1919.

To the Honorable Board of Penitentiary Commissioners:

Gentlemen:

Herewith you will find report for the 7th Fiscal Year, ending November 30th, 1919.

Every effort has been made and it is believed that the statistical report will bear it out, to carry along the affairs of this institution within the amounts appropriated for its maintenance, despite the high prices prevailing. You will be interested no doubt in a comparison of costs of this institution with other penitentiaries being the only reports received for the year 1918, the data being obtained from the reports issued by the respectively named institutions:

Institution	Average No. of prisoners	Daily Cost per capita
Leavenworth	1613.69	82.09 cents
Montana	675.	96.07 "
Connecticut	595.01	89.64 "
Missouri	2317.	72.18 "
Sing Sing	1203.	84.00 "
Auburn	1151.	77.00 "
Clinton	1270.	77.60 "
New Mexico	421.	55.70 "
New Mexico	319. (1919)	78.40 "

There has been a very material increase in prices for commodities of all kinds during the year and curtailment along all lines wherever it has been permissible has been the rule. Whether there will be an alleviation of this condition to permit certain needed improvements, with the appropriations and earnings now appertaining, it is difficult to state, but it would appear with the strife and turmoil prevailing, not only abroad but in this country, it will be many months, perhaps years, before a period of rest and normality will ensue, and the in-

stitution to make these much needed improvements will be compelled to call upon the next legislature to make appropriations that are adequate to its needs.

Appropriations were made by the last legislature for the purchase of a Motor Truck, of a new Babcock and Wilcox boiler, new laundry machinery, improvements in the brick plant, painting buildings, purchase of new equipment and the extension of the store building. The truck has been purchased, the new machinery installed, brick, laundry and boiler, and considerable painting has been done. Nothing has been done toward the extension of the store building, but when weather conditions permit, perhaps sometime during the late spring or early summer, this work will be taken up. The amount of \$2000.00 appropriated for a survey of the institution has not been touched. A contract has been entered into with three very prominent and experienced men in their respective lines connected with penitentiary work, to make the survey and it is understood that they will undertake the work very shortly.

The earning power of the institution, that is the making of brick and hollow building tile, has been comparatively nil during the year. The plant was shut down for repairs about the middle of May, and it was not till about the middle of October when operations were resumed, only to be discontinued owing to the coal strike—only a sufficient supply of coal being obtainable for the domestic purposes of the institution. In fact for three or four weeks it was found necessary to send teams and gangs out in the mountains and bring in wood to keep the boilers going during the day.

An average of 51.7 prisoners per day has been employed on state road work, the principal work, during the year, being on a stretch about twelve miles south of Taos.

The health of the prisoners has been very good during the year. Those prisoners remaining at the institution, not engaged in road work have been employed at various tasks, such as farming, repairing roads in the vicinity of Santa Fe, hauling wood, and the usual line of work in the institution, but a goodly number have been idle owing to the brick plant being shut down.

The per capita cost has jumped considerably. This is partly attributable to the falling off of the population—the overhead charges remaining the same whether the population is large or small. The average number of prisoners during the

year is 319, the smallest number confined in the penitentiary since the years 1909 and 1910. Last year's average population was 421, a falling off of 102, or nearly 25 per cent decrease. Whether this falling off may be accounted to the enforcement of the prohibition of the use of intoxicating drinks I cannot state, but undoubtedly it has its effect, which must be very gratifying to those who have so long and persistently advocated and worked for prohibition.

During the year the Finger Print Identification System has been put in use. The Assistant Superintendent, Mr. Dugan, made a special trip to Leavenworth to examine into the merits of this system with the result that it was adopted, and now every prisoner entering the institution is not only photographed and a description physically taken of him, but also his finger prints are taken, making as near a perfect and unfailing means of identification as may be.

The garden about the institution was very productive during the past season, supplying the needs of the table amply. A large amount of alfalfa and corn was also produced from the farms, sufficient undoubtedly to last till next season's crop.

The financial report, statistics of the institution, report of the physician and acting parole officers are hereto attached and made part of this report.

Before concluding, permit me to extend to your Board my thanks for the assistance you have given me during the year, and I also tender to the Assistant Superintendent and the other officers and employes my grateful acknowledgment of the loyalty and support rendered by them.

Respectfully,

FIDEL ORTIZ,  
Superintendent.

### **PHYSICIAN'S REPORT**

Hon. Fidel Ortiz, Superintendent,

New Mexico Penitentiary, Santa Fe, New Mexico.

Dear Sir:

I respectfully submit my report as Physician of the New Mexico State Penitentiary for the Seventh Fiscal Year, ending November 30th, 1919:

Morning sick calls.....	1089
Treated and returned to work.....	883
Treated and returned to cell.....	104
Sent to hospital.....	102
Tuberculosis .....	3
Surgical operations .....	8
Deaths: Dec. 27, 1918, Domingo Madrid, Alcoholic Cirrhosis of Liver.	
April 21, 1919, Gomecendo Vialpanda, Pneumonia.	
June 25, 1919, Manuel Gonzalez, Tuberculosis.	
July 11, 1919, M. B. Davidson, Tuberculosis.	

The general health of the inmates has been, on the whole, very good. The majority of the men reporting at sick call had minor ailments.

The food furnished has been up to the past high standard.

Sanitary conditions are poor. Cell houses need sanitary toilets. Cans used as cuspidors should be replaced by wide mouth cuspidors. The Hospital building needs to be replastered and re-finished. New floors to replace the old splintered boards, or oil supplied for use on the floors at least once every two weeks.

A physician has been put in charge of the drug room.

Respectfully,

E. W. FISKE,  
Physician.

Santa Fe, New Mexico.  
November 30th, 1919.

### ACTING PAROLE OFFICER'S REPORT

Honorable Board of Commissioners:

As Acting Parole Officer I beg to submit the following report, covering the 7th Fiscal Year, ending November 30th, 1919:

Paroled .....	52
Expired by limitation .....	17
Delinquent .....	12
Reporting regularly .....	23
	— 52

Of the delinquent four have been returned to the institution to serve out their maximum terms.

Respectfully submitted,

FIDEL ORTIZ,  
Acting Parole Officer.

**CLERK'S REPORT**

Hon. Fidel Ortiz, Superintendent,

New Mexico State Penitentiary, Santa Fe, New Mexico.

Dear Sir:

Attached hereto find report of the financial and physical condition of the New Mexico State Penitentiary.

Respectfully submitted,

WILLIAM A. BAYER, Clerk.

Santa Fe, N. M., December 1st, 1918.

His Excellency, W. E. Lindsey,  
Governor of New Mexico,  
Santa Fe, New Mexico.

Sir:

We have the honor to transmit to you herewith the report of Thomas Hughes, Superintendent of the State Penitentiary of New Mexico, for the Sixth Fiscal Year ending November 30th, 1918, showing the financial condition, population and statistics of various kinds relating to that institution, together with certain recommendations made by the superintendent in which the Board fully concurs, and is submitted as the report of the Board of Penitentiary Commissioners to you for your consideration and action as provided by law.

We take this occasion to congratulate your administration as well as the taxpayers of the State upon the management of this institution during the incumbency of the present superintendent. Many new and perplexing problems presented themselves to him for solution; these were met and overcome with rare intelligence and marked executive ability. It is to be regretted that the State cannot longer be benefited by his services.

We earnestly recommend that some comprehensive plan be worked out under which this institution may be removed from politics, and placed in charge of a superintendent, properly compensated, who shall hold the position until removed for cause. No real development of the latent possibilities will be undertaken by a superintendent who realizes that under our existing laws and practices he will hold the position for but two or possibly four years. Had such a plan been installed at the time this prison was established it would now not only be self-supporting, but the condition of the discharged prisoners would have been enormously benefited, and their chances to become useful citizens greatly enhanced.

To keep three hundred men, or more, or less, confined in prison in idleness and then turn them loose worse than when they were incarcerated is a crime on the part of the State; incidentally it is also contrary to the provisions of our statutes upon that subject. Further failure on the part of the legislatures to provide ways and means to utilize this potential productive

power to conform with the law's intention is a shameful disregard of the interests of the taxpayer.

The Budget submitted by the Superintendent has received our careful examination and consideration. The Budget Committee should allow the estimates, and the legislature should provide the amounts designated until such plans are consummated for making the institution self-supporting.

In the last analysis the taxpayer is the person chiefly interested in both the problems: that of finance and the transformation of the prisoner into the useful citizen. Through you we pass it up to the taxpayers. They can cure the disease, or let it grow.

Respectfully submitted,

D. T. HOSKINS, *President.*

WM. J. BARKER, *Secretary.*

WARREN GRAHAM.

L. A. HUGHES.

J. E. TORRES.

# *Annual Report of The New Mexico State Penitentiary*

Santa Fe, New Mexico, December 1st, 1918.

To the President and Members of the New Mexico State Penitentiary Commission.

Gentlemen :

I hand you herewith report of the financial and physical condition of the State Penitentiary for the year commencing December 1st, 1917, and closing November 30th, 1918.

The prevailing high prices have affected the institution very materially, but on the whole the year's work has been very satisfactory. I feel that a great deal of good has been accomplished among the inmates and that the effort to build them up has not been wasted.

As to the financial condition of the institution, I respectfully refer you to the report of the Chief Clerk, William A. Bayer. I wish to call especial attention to the action taken by your Board at the November, 1917, meeting. A copy of the resolution passed at this meeting being as follows :

## IN THE BOARD OF COMMISSIONERS OF THE PENITENTIARY OF NEW MEXICO

### RESOLUTION

On the 21st day of November, 1917, the Board of Commissioners of the Penitentiary of the State of New Mexico, meeting in an adjourned session of the regular November meeting, the following resolution and proceedings were had by the unanimous vote of the said Commissioners, all of whom were present:

WHEREAS, the specific appropriations heretofore made for the maintenance of the Penitentiary of the State of New Mexico have become exhausted owing to the unprecedented and unusual increase in the cost of food stuffs, leather and clothing; and, whereas, the appropriation for the maintenance for the Sixth fiscal year is not available and is inadequate for the maintenance of said institution; and, whereas, an emergency exists, in that food and clothing are urgently required for the inmates of said institution;

THEREFORE, BE IT HEREBY RESOLVED:

That sufficient food and clothing for the inmates of the said State Penitentiary be purchased on the credit of the State;

That the kind, quantity, quality, and estimated cost of such supplies, food and clothing, necessary for a period of six months, ending May 31st, 1918, are as following, to-wit:

150 doz.	Socks, No. 17, at \$2.35 doz.....	\$ 352.50
1,500 yds.	Canton Flannel, No. 4, 10 oz., 33 inch, 41c yd.....	615.00

\$16,416.88½

That the said Board of Commissioners of the State Penitentiary, on the approval of this resolution by the Governor of the State of New Mexico, be authorized to purchase the above mentioned supplies in the said amounts, and at the said prices, on the credit of the State of New Mexico; and to borrow for such purpose the said total sum of \$16,416.88, for such term as may be necessary, from some bank or banks in the

State of New Mexico; and said Board is authorized to contract, on the credit of the State, for the payment of not to exceed eight per cent. per annum interest on the said amount.

That the state of the funds appropriated to said State Penitentiary, as of this day, is as follows, to-wit:

Penitentiary Maintenance Fund .....	\$ 761.94
Penitentiary Purchase of Land Fund .....	12,129.14
Penitentiary Current Expense Fund .....	474.67
Penitentiary Income Fund .....	5,067.81
Penitentiary Permanent Fund .....	3,503.02
Penitentiary Hospital Building Fund .....	1,003.58
Penitentiary Equipment of Operating Room.....	688.00
Penitentiary Transportation Discharged Convicts..	82.55
Penitentiary Board Fund .....	241.50

That a copy of this resolution, certified by the President of said Board of Commissioners of said institution, attested by the Secretary of said Board, be transmitted to the Governor of the State of New Mexico for his approval.

THIS IS TO CERTIFY that the above foregoing is a true and correct copy of a certain Resolution passed by the unanimous vote of the Board of Commissioners of the New Mexico State Penitentiary, at the City of Santa Fe, as the same appears in the minutes of said Board.

Given at the City of Santa Fe, this 21st day of November, 1917.

(Signed) D. T. HOSKINS,

President of the Board of Commissioners of the New Mexico State Penitentiary.

Attest:

(Signed) WM. J. BARKER,

Secretary of the Board of Commissioners of the  
New Mexico State Penitentiary.

Santa Fe, New Mexico, November 21st, 1917.

To the Board of Commissioners for the New Mexico State Penitentiary:

This is to advise you that I was personally present at your meeting held on the above date wherein it was resolved that your Board be authorized to borrow the sum of \$16,416.88, for the purpose of purchasing supplies as set forth in said resolution and that I approved the legality of such action by your board.

Very truly yours,

(Signed) MILTON J. HELMICK,

Assistant Attorney General.

OFFICE OF THE GOVERNOR OF THE STATE OF NEW MEXICO.

To the Board of Commissioners of the New Mexico State Penitentiary:

The above and foregoing certified copy of the Resolution of your Board has come to my hand this 21st day of November, 1917. I hereby approve the foregoing Resolution and authorize the purchase, on the credit of the State, of the food, clothing and supplies therein mentioned, in the amount therein set forth, according to the terms and provisions of said Resolution.

I am returning the said certified copy of said Resolution with this approval endorsed thereon, to your Board.

Done at the office of the Governor, in Santa Fe, New Mexico, this 4th day of December, 1917.

(Signed) W. E. LINDSEY,  
Governor of the State of New Mexico.

Extract from the Minutes of the Board of Penitentiary Commissioners, of a meeting thereof, held on March 14th, 1918:

Motion by Mr. Graham:

"Whereas, on the Twenty-first day of November, 1917, the Board of Commissioners of the New Mexico State Penitentiary passed a resolution authorizing the President and the Secretary of the Board to borrow the amount of \$16,416.88 to pay for supplies to be contracted for and purchased on the credit of the State of New Mexico, which supplies are to be used during the six months ending May 31st, 1918;

And, whereas, some of the firms and institutions furnishing said supplies have declined to extend further credit to this institution unless these bills are paid;

Now Therefore Be It Hereby Ordered that the President and Secretary of the Board of Commissioners of the New Mexico State Penitentiary execute the notes of the New Mexico Penitentiary, signed by the President and attested by the Secretary of the said Board of the said institution—said notes payable to the First National Bank of Santa Fe, in the sum of \$8,204.44, and the San Miguel National Bank of Las Vegas in the sum of \$8,204.44—said notes to bear interest at the rate of eight (8) per cent. per annum from date and made payable one year from the date of this resolution, and that the Superintendent of the New Mexico State Penitentiary pay the interest quarterly on said notes out of the proceeds received from Convicts' Earnings.

And Be It Further Resolved that the proceeds of the aforesaid notes be deposited in the First National Bank of Santa Fe and the San Miguel National Bank of Las Vegas in equal amounts and that the money to be withdrawn from the said banks be on the checks of the Superintendent of the New Mexico State Penitentiary, payable to the order of the parties who furnished the supplies and that the regular vouchers used in the payment of these supplies be attached to the checks when so issued and the vouchers to be held by the said banks paying said checks issued, as evidence of the payment for the supplies furnished in accordance with this resolution.

Be It Also Further Resolved, that the Secretary send to each of the aforesaid banks mentioned a certified copy of the resolution passed by this Board on the Twenty-first day of November, 1917, authorizing the creation of this indebtedness, together with a certified copy of the resolution herewith. Motion seconded and carried."

The above notes in the amount of \$16,416.88 have been executed and delivered to the banks above mentioned and credit obtained therefor and the proceeds expended in strict compliance with the foregoing resolutions. This amount now remains unpaid and will have to be taken care of by the next year's appropriation. Attention is called to this indebtedness in the Budget, which has been submitted to the Governor.

Also do I invite your most careful attention and study of the Budget as prepared by the Chief Clerk and myself, the same being made part of this report, as follows:

Received during year .....	257
Discharged or escaped during year.....	412
Number on November 30, 1918.....	344
Total Inmate Days for the year:	

December 1, 1917—November 30, 1918

Average Inmate Days 1917.....	421
Maximum Number of Inmates on Dec. 1, 1917.....	503
Minimum Number of Inmates on Nov. 30, 1918.....	344

### INMATE CAPACITY OF INSTITUTION

2 Cell Houses, 204 Cells; Beds, 319.  
Dining Room, 36 Tables; Persons, 324.

### EMPLOYEE CAPACITY OF INSTITUTION

Houses, 1, Asst. Superintendent; Rooms, 5  
Guard House, 1; Beds, 6.  
Dining Room, Guards, 1; Persons, 18.

The past year has been the most unusual in the history of the institution. The conditions brought about by the war have affected the Penitentiary in its every department. The most im-

portant of these were the food and fuel administrations and the War Industries Board (Priorities Division). The cost of food, fuel and wearing materials were greatly increased and the curtailment of all construction projects by the Government, which are not a war necessity, cut the brick output to one-half what it was during the Fifth Fiscal Year. In fact, together with the collapse of the brick making machinery, the industry has been at a standstill for the last seven months; whereas, on the other hand, the maintenance of the stable and the operation of the engine and boiler rooms ran on at an increased cost.

The provision of the State Statute requiring the Board to call for bids twice a year in May and November for six month's supplies in advance has in my opinion cost the state the highest prices on account of the unsettled conditions of all markets; whereas a policy so called—"hand-to-mouth"—could have been used would undoubtedly have effected a material saving.

### IMPROVEMENTS

Under the head of Improvements it is hard for me to know where to start or where to stop. First I suggest rebuilding of certain units rather than repairing them. The Cell-Houses could be made more livable if running water was piped to each cell and sewage connections made. The machinery of the brick plant and the laundry is obsolete and completely worn out. This machinery will have to be replaced with new. I recommend to the Board in this connection that an architect be employed to make a survey and an estimate of what will be needed in the cell-houses, brick plant and laundry, to place these departments in an up-to-date, proper workable condition.

The biggest leak in the operation of the Penitentiary is in the boiler room and the steam heating system. This also needs the services of an expert. There are seven towers on the wall that are not connected with the steam line, but are heated by small stoves. It is necessary to maintain a fire in each of these towers twenty-four hours a day during the winter months. I am of the opinion that there is enough steam wasted to take care of the towers if the proper steam lines were laid to them. The cooking is by steam-cookers. In the summer months it is necessary to run the larger boiler for the cookers alone, regardless of the fact whether the brick mill, brick dryer or electric dynamo is running. The apparent waste of coal in this instance is considerable.

In May the brick making machinery collapsed, the infirm-

ities of old age being the cause of the disaster. The breakdown came during the high tide of the war, when it was almost impossible to obtain supplies for repairs. Permission for same had to be obtained from the National Industrial Priorities Board at Washington, D. C., and the delay caused the brick mill to be shut down from May till September. During all this time the same amount of coal was consumed in the boilers, although we were unable to make any brick. This accounts for the large consumption of coal when the brick made is just about one-half of that made last year.

### PHYSICIAN'S REPORT

Hon. Thos. Hughes, Superintendent,

New Mexico Penitentiary, Santa Fe, New Mexico.

Dear Sir:

I respectfully submit my report as Physician of the New Mexico State Penitentiary for the Sixth Fiscal Year, ending November 30th, 1918:

Morning sick calls.....	251
Treated and returned to work.....	183
Treated and returned to cell.....	18
Sent to hospital.....	50
Tuberculosis .....	2
Surgical operations: Irdeetomy.....	1
Deaths: Oct. 13, 1918, Marcos Ocampo .....	Influenza
Oct. 21, 1918, A. Martinez .....	Influenza
Oct. 23, 1918, James Williamson .....	Influenza

The general health of the inmates has been better than ever before.

The food furnished the inmates has been up to the past high standard.

The sanitary conditions in the Penitentiary are such that the installation of sanitary toilets in the cell-houses and yard are urgently needed. The present healthful condition of the inmates is due to luck and not to any modern sanitary equipment.

Considering the class of men in the institution, the epidemic of Spanish Influenza has taken a very small toll. A large number of minor cases were attended by the hospital attendant and so do not appear on the regular sick report.

Respectfully,

J. A. MASSIE,  
Physician.

Santa Fe, New Mexico.  
November 30th, 1918.

## ROAD WORK

Seven road camps have been maintained during the year at the following locations: Tijeras Canyon, Alamogordo, Escondido, Deming, Mogollon Road, La Bajada Hill and Abiquiu. Complying with Sec. 52, Chap. 101, Compiled Statutes, the clay pit teams and men have been employed on road work in and around the City of Santa Fe. About three miles of road have been constructed by the men and teams during the shut down of the brick plant. The road from the Penitentiary to the City has been rebuilt and College Street from the City limits into the City resurfaced. The state road work is done in co-operation with the State Highway Department. The highest number of men out was during July, when 152 men were working on the state roads. A daily average of 89 has been maintained during the year. The large number of escapes is due to the large number of men employed on state road work under the honor system. Owing to the scarcity of labor for road work the prison officials were obliged to send out men who would not under different conditions be sent out to work outside the walls.

## FARMS

The work on the farming lands adjacent to the Penitentiary and on the State Farms two miles from the Penitentiary has been very successful. The amount of produce raised from truck gardening amounted to \$1,512.10; the forage from Farm No. 1 to \$2,002.35 and from Farm No. 2, \$368.75, making a total of produce and forage of \$3,883.20.

## WAR WORK

The knitting rooms have been busy during the past year and have turned out over eight thousand (8000) pairs of woolen socks for the Red Cross. The prisoners have shown a great interest in the war work, and have subscribed liberally to all of the bond issues, United War Work and the Red Cross.

## CONCLUSION

It has been impossible to make any improvements in and around the institution during the last decade owing to the insufficient appropriations. There is not a department that is not run down at the present time. It is natural for the superin-

tendent to make every effort to keep within the appropriation and while doing so the institution is falling down on account of strict economy and delay in making repairs and needed improvements. The New Mexico State Penitentiary is a permanent fixture in the make-up of the state and will always be needed. This being the case it is necessary that it be builded up and added to from time to time. This has not been done in the past few years. Every building, every department, every piece of equipment has suffered on account of the inadequacy of appropriations to enable the administrative officials to make the needed betterments and improvements.

I have already referred to the brick making machinery, the laundry and boiler room, but I cannot close this report without making reference to the entire institution. During the year between 1899 and 1900 the brick making industry was installed. Several years ago to this was added a Hollow Tile Making Machine. Last year the printing office was installed. During a period of twenty-eight (28) years the State of New Mexico has provided three small industries to furnish employment for its prison labor. For the last ten years there has been an average of three hundred (300) idle men in the institution who could be doing something for the state, if the opportunity was given them. Idleness breeds crime and it is the duty of the state to immediately provide some industries that will keep all the men employed inside the walls. There are a number who can be worked advantageously on the road, but the greater number must be confined on the inside and should be earning something for the state. Therefore I suggest a general survey of the institution be made for the purpose of putting the institution upon a firm foundation, working towards the establishment of industries and up-to-date, sanitary dormitories.

I wish to thank the members of the Board for the assistance given me.

Yours very respectfully,

THOMAS HUGHES,  
Superintendent.

## ACTING PAROLE OFFICER'S REPORT

---

Honorable Board of Commissioners:

As Acting Parole Officer I beg to submit the following report, covering the Sixth Fiscal Year, ending November 30th, 1918:

Paroled .....	73	
Conditionally pardoned .....	33	
	—	106
Expired by limitation .....	46	
Delinquent .....	27	
Reporting regularly .....	30	
Restored to citizenship .....	2	
Died .....	1	
	—	106

Respectfully submitted,

THOMAS HUGHES,  
Acting Parole Officer.

---

## CLERK'S REPORT

---

Hon. Thos. Hughes, Superintendent,  
New Mexico State Penitentiary,  
Santa Fe, New Mexico.

Dear Sir:

Attached hereto find report of the financial and physical condition of the New Mexico State Penitentiary.

Yours very truly,

W. A. BAYER,  
Clerk.

NEW MEXICO STATE PENITENTIARY  
SANTA FE, N. M.

Santa Fe, N. M., December 13, 1916.

Hon. W. C. McDonald,  
Governor of New Mexico,  
Santa Fe, N. M.

Sir:—

We have the honor to transmit to you herewith the report of John B. McManus, Superintendent of the State Penitentiary of New Mexico, for the fourth fiscal year, ending November 30th, 1916, showing the financial condition, population and statistics of various kinds relating to that institution, together with certain recommendations made by him, in which the Board fully concurs, and is submitted as the report of said Board to you for your consideration and action, as provided by law.

We desire to thank Superintendent McManus and his assistants, and other officers and employes, for the efficient and economical business administration of the affairs of said institution by them during the said fiscal year.

This report, as well as his previous reports, shows a striking and favorable comparison of his work as Superintendent as against previous administrations for some years past.

We wish to call attention to the efficient manner in which the Penitentiary Farm has been managed, and the products realized therefrom, and the way in which they have been used for the benefit of the institution.

We again urgently request the tax payers and people of the State of New Mexico, to carefully examine the

following report, so that they may become familiar with the manner in which this important institution has been conducted under the efficient and economical management of Superintendent John B. McManus.

Very respectfully submitted,

MIGUEL A. OTERO,  
*President.*

CHAS. F. EASLEY,  
*Secretary.*

D. H. BOATRIGHT,  
JOSE I. ROYBAL,  
CHAS. E. DENNIS,  
*Commissioners.*

## NEW MEXICO STATE PENITENTIARY ANNUAL REPORT

---

Santa Fe, N. M., December 1, 1916.

Honorable Board of Penitentiary Commissioners:

I have the honor of submitting this, the Fifth Annual Report of your administration covering the fourth fiscal year, ending November 30th, 1916.

Despite the large increase in the prices of all supplies used by this institution we have again been able to keep our expenditures within the appropriations and other income, and have on hand a satisfactory cash surplus in some of the funds.

The daily population has averaged 427 for the year, exceeding the daily average of last year by 52. This is the highest daily average population ever reached by this institution.

The actual cost of maintenance per man, per day (which includes salaries, board fund, food, clothing, discharge money, administration, insurance and permanent improvements) for the year was .366 cents.

The following is the per capita, per day, cost, and average daily population for the seven years prior to 1916, as shown by reports:

Year	Per capita cost per day	Average Daily Population
1909.....	.541	279
1910.....	.67	314
1911.....	.60	368
1912.....	.533	366
1913.....	.494	373
1914.....	.501	362
1915.....	.467	375

We have had an exceedingly good year in our Brick and Tile business, and our crop harvest has been good; this coupled with your careful contracting for all supplies, and the economical use of same, has enable us to make a satisfactory showing in our finances.

As shown further on in this report, there has been no skimping in the prisoners' food. It has been served in sufficient quantities, and in a clean and wholesome manner.

The average cost per day per person for subsistence was .154 cents.

In the fall of 1915, your Honorable Board saw fit to authorize the expenditure of some \$1,800.00 for the remodeling and repair of our steam plant and heating system, and I am pleased to report that during the first year, the saving has been more than double the cost of the improvements.

The hollow tile machine, the purchase of which you authorized in 1915, has also proven a profitable investment for the institution.

The following is a concise statement of the finances, and is shown in detail later in this report.

The appropriations for the fourth fiscal year were as follows:

General Maintenance .....	\$35,000.00	
Current Expense (Salary Fund)....	22,920.00	
Board Fund (\$1,800.) Bills incurred	1,668.25	
Transportation Discharged Convicts	1,500.00	
Income .....	4,831.24	
Permanent Improvements .....	(\$3,399.78)	
Bills Incurred .....	725.90	
Equipment Operating Room.....	(\$2,000.00)	
Bills Incurred .....	4.84	
Purchase Penitentiary Lands .....	(\$5,000.00)	
Bills Incurred .....	393.20	\$67,043.43
<hr/>		
To which should be added the following amounts, previously appropriated, and for which bills were incurred this year:		
Bake Oven .....	45.40	
Library .....	29.00	74.40
<hr/>		
Total available for Fourth Fiscal Year .....		\$67,117.83
Total Bills incurred for Fourth Fiscal Year .....	\$101,900.18	
Less Brick, Tile and Lime Sales and other revenue .....	40,462.35	61,437.83
<hr/>		

Balance in appropriations over net disbursements .....		\$ 5,680.00
For Maintenance was expended....	\$59,492.93	
For Permanent Improvements was expended .....	1,944.90	\$61,437.83

As shown above, we have a balance in appropriations over net disbursements of \$5,680.00.

We have on hand unpaid bills as follows:

For Maintenance Purposes .....	\$11,815.87	
For Salaries .....	3,812.33	
For Permanent Improvements .....	589.31	\$16,217.51

The following amounts are available and to become available for the payment of the above:

#### CASH ON HAND.

Convicts' Earnings .....	\$ 4,119.59	
Current Expense (Salary Fund) .....	185.21	
Income .....	4,864.11	
Permanent Improvements .....	589.31	
	\$ 9,758.22	
Due to Complete Appropriations:		
General Maintenance .....	5,552.23	
Current Expense .....	3,627.63	18,938.08
The above shows a surplus in the several funds (after the completion of the General Maintenance and Current Expense Appropriations) of .....		2,720.57
And in addition, we have in good collectable Accounts Receivable, the sum of.....		7,461.02
		<hr/>
Thus leaving a total surplus of.....		\$10,181.59
The Inventory of Provisions, Clothing, Brick, Tile, Hay and Grain, etc., December 1, 1916, all of which are paid for or included in the unpaid bills (as per statement above) total		\$11,851.53

#### PERMANENT IMPROVEMENTS.

During the year we have expended the sum of \$1,944.90 in permanent improvements. During the coming year it will be necessary to spend a considerable sum for the needed permanent improvements and repairs.

The permanent improvements made, and for which cash was expended, were as follows:

Farm, purchase of land and improvements .....	\$592.33	
Brick and Tile Plant, balance on tile machine and dies .....	589.40	
Library—Books .....	25.00	
Hospital—Surgical Instruments and Beds.....	112.84	
Cell House No. 1—Metal Cornice, etc. ....	305.50	
Cell House No. 2—Iron for new beds.....	112.03	
Convicts' Dining Room—Tables and Hardware....	64.58	
Steam Plant—New Equipment .....	113.92	
Bakery—Coal Car .....	29.30	\$1,944.90

#### THE INMATES.

During the year the prisoners have been employed chiefly in the manufacture of Brick and Tile, building State Roads, and in the gardens and on the farm. We have had more idle men in the yard during the past year than ever before, caused by the increase in population and lack of employment for them. Some industry must be established that our surplus men may be kept employed.

For their amusement the prisoners are allowed to play base ball, hand ball and quoits; and moving pictures are shown at intervals.

The discipline of the institution is good—with a few exceptions, the inmates show a desire to obey the rules and regulations of the institution.

#### HEALTH AND SANITATION.

As shown by the Physician's Report, the general health of the prisoners has been good, and the sanitary condition of the institution is pronounced excellent. Seven operations have been performed, and three deaths have occurred.

The equipment for the new operating room should arrive soon, and will enable us to have operations performed at our own hospital. Heretofore the operations have been performed at St. Vincent's Sanatorium. No charge has been made by the Sisters who manage the institution, for the care of the convicts while convalescing, and who have been kept there on an average of ten days each.

**BRICK, TILE AND LIME INDUSTRIES**

The sales in this department during the year amounted to \$24,965.59, and consisted of:

1,792,419	Red Brick
608,860	Vitrified Brick
147,591	Pieces Building Tile
255,860	Pounds Lime
1,202	Pieces Paving Blocks and Miscellaneous

**SWINE DEPARTMENT.**

We had on hand, at the close of the last fiscal year, hogs and pigs valued at \$1,307.50.

We consumed at the Penitentiary, hogs valued at \$878.76, realized from cash sales \$343.38, and now have on hand hogs and pigs valued at \$1,451.00.

**ROAD WORK.**

The daily average number of men employed during the year in building State Roads was 76.7; the work being done in Sierra and Bernalillo Counties. The total number of men sent to the road camps during the year was 94. With the exception of clothing furnished from the Penitentiary, the camps are still maintained by the State Highway Commission.

**PENITENTIARY GARDEN AND RANCH.**

We had a very successful year in harvesting crops from our Penitentiary Gardens and Ranch, and this helped very materially in keeping down the cost of maintenance.

From the Gardens, we harvested the following:

86,303	lbs. Table Vegetables	.....	@ \$	.01	lb.	.....	\$	863.03
17,801	" " "	.....	"	.02	"	.....		356.02
1,041	" " "	.....	"	.05	"	.....		52.05
1,654	" Fruit	.....	"	.02	"	.....		33.08
3,000	bunches Celery	.....	"	.05	bunch	.....		150.00
5,787	lbs. Sweet Corn	.....	"	.02	lb.	.....		115.74
5,049	" Bayou Beans	.....	"	.07	"	.....		353.43

1,000 " Milo Maize .....	" .01½	" lb. ....	15.00
300 " Sunflower Seed .....	" .02	" " .....	6.00

Total for Ranch .....\$2,211.23

Making a total value for the crops harvested of.....\$5,248.03

### PRISON CAPACITY.

The two cell houses of this prison can comfortably take care of 300 prisoners. The daily average number that was taken care of inside the walls during the year was 342. The population is increasing from year to year, and another cell house or dormitory should be provided for at once, and should be of such capacity that it would be necessary for but one prisoner to occupy each cell.

About June 1, 1916, we found that on account of the increase of our State prisoners, we would not be able to receive any more Federal prisoners other than those sentenced from New Mexico and so notified the Department of Justice at Washington. We did this with regret as we were able to make a profit from handling Federal prisoners which helped greatly toward the maintenance of our institution.

### PAROLED PRISONERS.

I beg to call your attention to the report covering Paroled Prisoners, which shows that 95.2 per cent of those paroled during the year made good. We consider this a most excellent showing.

### NEEDS OF INSTITUTION AND RECOMMENDATIONS.

I respectfully recommend that a suitable and profitable industry be established at this institution, at the

earliest possible date, one that would employ from 125 to 200 men. Our present industries do not keep all of the prisoners occupied all of the time, and the resulting idleness is detrimental to the prisoners' welfare as well as to the institution.

A suitable industry, properly managed, should in a short time be made to maintain the institution, thereby saving to the tax-payer the great sum of money now being appropriated for that purpose. Your Board has had under consideration, the establishment of an industry which I think most suitable for the prisoners of this institution. An appropriation of \$10,000 would be necessary for the purchase of machinery, altering and building additions to buildings to make them suitable for shop purposes.

I believe that under certain conditions, and in the event the prison through its industries becomes self-sustaining, that a certain large percentage of the net profits should be given the convicts for the support of their families, and in the event the prisoner has no one dependent on him, that the accumulated sum be given the prisoner upon his release.

As in previous reports, I recommend the building of separate women's quarters, and a new cell house or dormitory for the men.

I believe that the institution should have a Catholic and a Protestant Chaplain, and I recommend the appointment of a Protestant Chaplain to work under the same conditions as the present Chaplain.

I strongly recommend the purchase of a 3 or 3½ ton motor truck for use in hauling clay for the Brick and Tile plant. This truck with one or two wagon trailers would displace five or six teams, and would deliver considerable more clay at less cost. I believe it would prove to be a very profitable investment.

In previous reports I called your attention to the inadequate salaries paid the Penitentiary employees, and I again respectfully recommend that an adequate increase

in salaries be made to the Captains, Cell House Keepers, Guards and Physician, and other employees.

#### CONCLUSION.

I again wish to express my sincere thanks to your Honorable Board for the assistance and uniform courtesy always extended to me.

I desire to express my sincere appreciation to the officers and employees of the institution for their loyal support and co-operation.

As from the first, Governor McDonald has shown a keen interest in the work of the institution, and I thank him for his kind co-operation in our effort to better the condition of the inmates.

We are very grateful to the Sisters in charge of St. Vincent's Sanatorium for caring for the seven prisoners on whom were performed surgical operations during the past year, and for which no charge was made.

Respectfully submitted,

JOHN B. McMANUS,  
*Superintendent.*

## ACTING PAROLE OFFICER'S REPORT

Honorable Board of Commissioners:

As Acting Parole Officer, I beg to submit the following report, covering the Fourth Fiscal Year, ending November 30th, 1916:

	Total	Per cent
Paroled during Fourth Fiscal Year .....	96	
Conditionally Pardoned (same period) .....	7	
<b>Total Paroled and Pardoned .....</b>	<b>103</b>	<b>100</b>
<hr/>		
Expired by Limitation .....	24	.233
12 Reports In .....	3	.029
Reporting Regularly .....	69	.670
Restored to Citizenship .....	2	.020
Delinquent .....	5	.048
		100%

As shown above, 95.2 per cent of those paroled during the Fourth Fiscal Year made good.

Respectfully submitted,

JOHN B. McMANUS,  
*Acting Parole Officer.*

## PHYSICIAN'S REPORT

Hon. John B. McManus, Superintendent,  
New Mexico State Penitentiary,  
Santa Fe, N. M.

Dear Sir:—

I respectfully submit my report as Physician of the New Mexico State Penitentiary for the Fourth Fiscal Year, ending November 30, 1916:

Morning Sick Calls .....	1244
Treated and returned to work .....	1149
Treated and returned to cell .....	55
Sent to hospital .....	40
	1244

Tuberculosis .....	5
--------------------	---

Surgical Operations:

Appendicitis .....	3
Resection of the femur .....	1
Gallstones .....	1
Iridectomy .....	1
Circumcision .....	1
	7

Deaths:

May 16, 1916—Frank Allen .....	Senility
May 26, 1916—Jose Grigalba .....	Uremia
June 23, 1916—Jose Medina .....	Tuberculosis

Transferred to Insane Asylum .....	2
------------------------------------	---

The general health of the inmates has been exceptionally good.

The food furnished the inmates has been up to the past high standard, and the sanitary condition of the Penitentiary is excellent.

A paid Hospital Steward is a necessity, and a further appropriation of \$1,000.00 will be needed to completely equip the hospital.

Respectfully,

J. A. MASSIE,  
*Physician.*

Santa Fe, N. M., November 30, 1916.

## CLERK'S REPORT

---

Santa Fe, N. M., November 30, 1916.

Hon. John B. McManus, Superintendent,  
New Mexico State Penitentiary,  
Santa Fe, New Mexico.

Sir:—

I have the honor to submit to you the following complete financial and statistical report of the New Mexico State Penitentiary for the Fourth Fiscal Year, ending November 30th, 1916.

Very respectfully,

ROBERT L. ORMSBEE,  
*Clerk.*

NEW MEXICO STATE PENITENTIARY  
SANTA FE, N. M.

Santa Fe, N. M., January 5, 1916.

Honorable W. C. McDonald,  
Governor of New Mexico,  
Santa Fe, New Mexico.

Sir:—

We have the honor to transmit to you herewith the report of John B. McManus, Superintendent of the State Penitentiary of New Mexico, for the third fiscal year, ending November 30th, 1915, showing the financial condition, population and statistics of various kinds relating to that institution, together with certain recommendations made by him, in which this Board fully concurs, which report has been examined, approved and adopted, and is submitted as the report of said Board to you for your consideration and action, as provided by law.

We desire to thank Superintendent McManus and his assistants, the other officers and employees, for the efficient and economical business administration of the affairs of said institution by them during the said fiscal year.

This report shows a striking and favorable comparison of his work as Superintendent as against previous administrations for some years past.

We wish particularly to call attention to the Penitentiary Farm, as well as the other improvements that have been added to the institution itself.

We cannot be too urgent in our request to the taxpayers and people of New Mexico in asking them to carefully examine in every detail the following report, so that they can become thoroughly familiar with the manner in which this important institution has been

conducted under the economical and able management  
of Superintendent John B. McManus.

Very respectfully submitted,

MIGUEL A. OTERO,  
*President.*

CHAS. F. EASLEY,  
*Secretary.*

## New Mexico State Penitentiary Report

---

Santa Fe, N. M., December 1, 1915.

*Honorable Board of Penitentiary Commissioners:*

I have the honor to submit herewith the Fourth Annual Report of your administration, covering the third fiscal year, ending November 30th, 1915.

The expenditures for this year have again been kept within the appropriations and other income, notwithstanding the fact that our sales of brick were about one-half those of previous years. We have practiced strict economy in every department, but have in no way skimmed in the food or clothing furnished the prisoners, and have added considerable to the permanent improvements of the institution.

The average daily population for this year has been 375, the greatest in the history of the institution. The actual cost of maintenance per man per day (salaries, board fund, food, clothing, discharge money, administration and insurance) for the year was 46.7 cents. The sum of \$9,554.16 was expended on permanent improvements, which added to expense of maintenance would make the total cost to the State of 53.7 cents per man per day. The cost of maintenance has increased only 1.6 cents over the year previous, notwithstanding the fact that nearly every article of food-stuff and clothing has shown a considerable advance in price as compared to the year previous.

The following is a concise statement of the finances, and is shown in detail later in this report:

The appropriations for the Third Fiscal Year were as follows:

General Maintenance .....	\$35,000.00	
Current Expense (Salary Fund) ..	21,060.00	
Transportation Discharged Con-		
victs .....	1,200.00	
Board (\$1800) amount used .....	1,631.40	
Income .....	7,070.74	
Permanent Improvements .....	178.56	
Purchase Penitentiary Lands .....	5,000.00	\$71,140.70

To which should be added, the following amounts previously appropriated and expended this year:

Purchase Penitentiary Lands .....	1,498.54	
Track Scales .....	245.82	
Library .....	90.35	1,834.71

Total available for the Third		
Fiscal Year .....		\$72,975.41
Total Bills incurred for Third		
Fiscal Year .....	\$99,239.22	
Less Sales Brick, Lime, etc., for		
Third Fiscal Year .....	26,339.20	72,900.02
Balance in appropriations over		
net disbursements .....		\$ 75.39

For Maintenance was expended		
the sum of .....	\$63,345.86	
For Permanent Improvements		
was expended .....	9,554.16	72,900.02

As shown above, we have a balance of \$75.39 in appropriations over net disbursements. We have on hand unpaid bills, now due, in the sum of \$9,180.29, and to take care of these, we have cash on hand, available for payment of these bills, the sum of \$8,379.63 (which in-

cludes amounts due to complete appropriations in Current Expense and General Maintenance Funds for Third Fiscal Year); and in addition the sum of \$5,397.90 in good accounts, making a total of \$13,777.53, which leaves a surplus in the sum of \$4,597.24, not including inventory of provisions, brick, etc.

The sum of \$9,554.16 was spent in Permanent Improvements, of which \$6,827.91 was obtained from special appropriations, and the balance, \$2,726.25, was taken from Convicts' Earnings and general appropriations.

#### PERMANENT IMPROVEMENTS.

*Farm.*—During the year, 70 acres of farm land were purchased. This land adjoins the 30 acres purchased two years previously, and is located on the Santa Fe River, about two miles northwest from the Penitentiary. This makes a farm of 100 acres.

The sewer line built by the State has its exit on a high corner of this farm, and with the contemplated improvements and leveling of the land, the entire tract can be irrigated from the sewer line. When available, water from the Santa Fe River can be used for irrigating the greater portion of this farm, but will not be needed when the contemplated improvements are made.

The total sum of \$6,297.00 was spent on this farm during the year. The sum of \$4,797.00 in the purchase of land, and the balance in building a barn, putting roof on house, building fences, and in building a main sewer ditch, and partially completing a series of sewage filter tanks. The filter tanks will be completed during the coming spring.

We now have accommodations for ten prisoners, and a guard at this farm, they being housed in a very comfortable six-room adobe house. We expect to keep at least ten prisoners on this farm the year around; and as becomes necessary, send extra gangs of prisoners from the Penitentiary to work there.

*Steam Plant and Heating System.*—We have remodeled the steam plant and heating system during the year at a cost for materials of \$1,891.72. This covers the purchase of a Wainwright Water Heater and necessary fittings and connections, a vacuum pump and necessary traps, fittings and connections for the Webster System of Steam Heating. We are now able to utilize all exhaust steam from the engines and pumps in our heating lines.

The improvements above mentioned will result in a great saving in fuel, and will more than save the cost of installation the first year. This improvement is valued at \$3,500.00.

*Hollow Tile Machine.*—We purchased during the year, a Hollow Tile Machine, which is to cost \$1,225.00, and on which we have paid the sum of \$725.00, the balance being due during the coming fiscal year. We are now able to make a very superior building tile, size 4" x 8" x 12", and another size 4" x 12" x 12"; also drainage tile, sizes, 4", 6" and 8" in diameter. This machine was purchased during the latter part of the year, but we have furnished building tile for two buildings in Santa Fe, and we expect that our next season's sales will prove very satisfactory.

*Brick Ditches, Sidewalks, etc.*—In building brick irrigation ditches at the Penitentiary, building brick sidewalks, and other miscellaneous improvements at Penitentiary, we have used materials costing \$304.27. These improvements are valued at \$1,000.00.

*Wagon Scales, etc.*—At a cost of \$245.82 we have installed at the Penitentiary a five-ton Fairbanks Wagon Scales; also new scales for butcher shop, store and kitchen.

*Library.*—We spent during the year the sum of \$90.35 for new books for the library.

### THE INMATES.

The prisoners have been employed chiefly in the manufacture of brick and tile, building state roads, and in the gardens and on the farm. Twenty-five prisoners were employed for about six weeks in laying street pavement for the City of Santa Fe.

The amusements allowed prisoners continue to be the same, viz, moving pictures, base ball, lot ball, and quoits.

The discipline has been satisfactory; the reports being about the same in number and kind as the previous year.

### BRICK, LIME AND TILE INDUSTRIES.

An average of 102 men have been employed in the manufacture of brick during the year. The sales were 870,315 Red Brick, 425,915 Vitrified Brick, 14,504 Hollow Building Tile, 248,035 lbs. Lime. The sales in this department were about one-half the sales of previous years.

### SWINE DEPARTMENT.

At the close of the last fiscal year, we had on hand hogs valued at \$1,305.00. We consumed at the Penitentiary hogs valued at \$531.14, and from sales realized in cash the sum of \$258.23. We now have on hand hogs and pigs valued at \$1,307.50.

During the year we purchased a Registered Berkshire Boar. Our stock is first-class, and during the year we have sold a number of pigs throughout the State. We lost a great number of young pigs during the spring, which explains the poor showing made by this department, as compared with last year, but we have discovered the cause, and should have better success from now on.

**GARDEN AND RANCH.**

On account of a very late spring and two heavy hail storms during the summer, our garden crop was almost a failure compared with crops raised last year. Some of the vegetables we planted three times. Hardly any of the vegetables matured, and therefore were unfit for winter storage.

From the Penitentiary gardens, we harvested the following:

5 tons	Alfalfa.....at	\$14.00	ton.....\$	70.00
63,500 lbs.	Vegetables.....at	.01	lb. ....	635.00
5 tons	Corn Fodder..at	10.00	ton.....	90.00
1,200 lbs.	Soudan Grass.at	10.00	ton.....	6.00
1 ton	Milo Maize...at	10.00	ton.....	10.00
12,500 lbs.	Corn on Cob..at	.01	lb. ....	125.00
3,940 lbs.	Chicory.....at	.01	lb. ....	39.40

From the Farm we harvested:

28 tons	Alfalfa.....at	\$14.00	ton.....	392.00
35 tons	Corn Fodder..at	10.00	ton.....	350.00
2 tons	Soudan Grass.at	10.00	ton.....	20.00
31,000 lbs.	Corn on Cob..at	.01	lb. ....	310.00
1,300 lbs.	Beans.....at	.03	lb. ....	39.00
Total .....				\$2,086.40

We harvested an orchard on shares and earned 2,500 pounds of apples, valued at \$50.00. Making a total earned on farm and gardens of \$2,136.40.

**ROAD WORK.**

During the year, an average of 58 men have been employed in building state roads; work being done in Bernalillo and Sierra Counties. The total number of men sent to the Road Camps during the year was 103.

We do not know what the camp maintenance cost is, as the camps are supported by the State Highway Commission, with the exception of clothing.

**NEEDS OF INSTITUTION AND RECOMMENDATIONS.**

I again recommend the establishment of an industrial department at this institution, for which an appropriation of at least \$2,500.00 would be necessary.

Also the building of a separate women's quarters. And a new modern cell house or dormitory for the men. Several times during the fall, we have had to put two men in the single cells of Cell House No. 2.

I recommend that some suitable industry be established, so that all the men that we find necessary to keep behind the walls, may be steadily employed. During the past two years, much idleness has been caused by the brick plant not running full capacity, and the increase in number of prisoners.

An industry that would employ steadily from 50 to 100 men would be a great benefit to the prisoners themselves, and to the institution, for at a Penitentiary, "Idleness is the root of all evil."

#### CONCLUSION.

In concluding this report, I again wish to thank your Honorable Board for your most fair supervision and hearty cooperation.

Governor McDonald continues to show a keen interest in the institution, and especially in the effort made to better the condition of the inmates.

To the officers and employees I desire to express my sincere thanks for their loyalty and devotion to the best interest of the institution.

I again desire to thank the Sisters in charge of St. Vincent's Sanitarium for caring for the five prisoners on whom were performed surgical operations during the past year. There was no charge made to the State for this great accommodation.

Respectfully submitted,

JOHN B. McMANUS,

*Superintendent.*

## Acting Parole Officer's Report

### *Honorable Board of Commissioners:*

As Acting Parole Officer, I beg to submit the following report covering the Third Fiscal Year, ending November 30th, 1915:

		Total.	Per cent.
Total Paroled during 3rd Fiscal Year.....		82	100
Expired by Limitation .....	18.... 22 %		
12 Reports In .....	1.... 01		
Reporting Regularly .....	54.... 66		
Died .....	2.... 025	75	.915
Held in Jail Awaiting Trial.....	2 025		
Delinquent .....	5 060	7	.085

Total Paroled January 1st, 1908 to Nov. 30th, 1915.....487  
 Total Delinquent January 1st, 1908, to Nov. 30th, 1915..... 62  
 Per cent of Delinquents to Total Paroled.....12.7%  
 Delinquents Returned to Penitentiary..... 21  
 Delinquents in Jail Awaiting Trial..... 2  
 Located in Other Prisons..... 1

As shown above, 91.5% of those paroled during the year made good. Of those paroled during the entire time that the Parole Law has been in effect, that is since January 1st, 1908, to November 30th, 1915, 87.3% have made good.

We consider this to be quite a remarkable showing.

Respectfully submitted,

JOHN B. McMANUS,  
*Acting Parole Officer.*

## Physician's Report

---

Hon. John B. McManus, Superintendent,  
New Mexico State Penitentiary,  
Santa Fe, New Mexico.

Dear Sir:

I respectfully submit my report as Physician of the New Mexico State Penitentiary, for the Third Fiscal Year, ending November 30th, 1915:

Morning Sick Calls.....	802
Treated and returned to work.....	503
Treated and returned to cell.....	230
Sent to Hospital.....	69 802
Surgical Operations:	
Appendectomy .....	3
Herniotomy ..	2 5

Deaths:

Jan. 19th, 1915—Juan Hernandez	...Tumor of the Brain
June 23rd, 1915—Moses Lewis	.....Bright's Disease
Sept. 10th, 1915—Ramon Vigil	.....Senility

Transferred to Insane Asylum..... 3

The general health of the inmates has been good. No serious epidemic having taken place during the past year.

The food furnished the inmates and the sanitary condition of the Penitentiary have both been excellent.

A paid Hospital Steward is a great need of the institution and I would recommend that this matter be brought to the attention of the Board of Commissioners.

Respectfully,

J. A. MASSIE,

*Physician.*

Santa Fe, N. Mex., November 30th, 1915.

### Clerk's Report

Santa Fe, New Mexico, November 30th, 1915.

Hon. John B. McManus, Superintendent,  
New Mexico State Penitentiary,  
Santa Fe, New Mexico.

Sir:

I have the honor to submit to you the following complete financial and statistical report of the New Mexico State Penitentiary for the Third Fiscal Year ending November 30th, 1915.

Very respectfully,  
ROBERT L. ORMSBEE,  
*Clerk.*
